		Structural Design	
	(B)	Urban design/Urban Rei	newal
	(C)	Retrofitting Architecture	9
	(D)	Landscape Architecture	
	(E)	Answer not known	
32.		-	rescribed rules and regulations in to as the Architects Act of 1972 ons)
	(A)	1984	(B) 1987
		1989	(D) 1991
	(E)	Answer not known	
33.	Plint	th area plus proportionate	e common area is called
	(A)	Super built up area	(B) Carpet area
	(C)	Site area	(D) Plot coverage
	(E)	Answer not known	

- 34. The role and functions of IIA (Rearrange in order)
 - (i) Professional Representation Advocacy
 - (ii) Education and Professional Development
 - (iii) Public Outreach and Awareness
 - (iv) Networking and collaboration
 - (v) Promoting excellence in architecture
 - (A) (i), (ii), (iii), (iv), (v)
- (i), (ii), (v), (iv), (iii)
- (C) (i), (iv), (v), (iii), (ii)
- (D) (i), (v), (ii), (iii), (iv)
- (E) Answer not known
- 35. Which benefit do architectural competitions provid to participants who will (or) receive recognition?
 - (A) Guaranteed Project funding
 - (B) Immediate construction contracts
 - Professional Networking opportunities
 - (D) Tax incentives
 - (E) Answer not known
- 36. Competition in which all architects are invited to participate through an announcement by advertisements in suitable media and through circulars which are issued by promoter is called
 - Open competition
 - (B) Limited Competition
 - (C) Closed competition
 - (D) Competition by invitation
 - (E) Answer not known

37.	Ope	n competitions is a type of competition open to all for
	(A)	Public
	(B)	Qualified Architects and students
	(0)	Qualified Architects
	(D)	Professors
	(E)	Answer not known
38.		nitect's services are comprehensive from ————————————————————————————————————
	(A)	partial, completion
	(B)	concept, partial
	(0)	concept, completion
	(D)	concept, allied
•	(E)	Answer not known
39.		scale of charges for Architectural conservation/Retrofilling/ itions and alterations as per COA is
	N(A)	7.5% on the cost of works assigned
	(B)	5% on the cost of works assigned
	(C)	3.5% on the cost of works assigned
	(D)	2.5% on the cost of works assigned
	(E)	Answer not known

40.		dings in different sites is —————— on the cost of works.
	(A)	3.0%
	(B)	5.0%
	(C)	2.5%
	Dy	3.5%
	(E)	Answer not known
41.	to re	means all the processes of looking after a place so as tain its historical, architectural and cultural significance.
	JAY	Conservation
	(B)	Preservation
	(C)	Restoration
	·(D)	Renovation
	(E)	Answer not known
42.	Rom Rom	aulus and ————— were believed to be the founders of the the founders of the fo
	JAY .	Remus
	(B)	Rugolus
	(C)	Rewanga
	(D)	Tholos
	(E)	Answer not known

- 43. A side walk that is widened by means of an extension under a building overhang is
 - (A) The plaza cover
 - The arcade plaza
 - (C) The overhang
 - (D) The canopy overhang
 - (E) Answer not known
- 44. The book "Image of the city" was written by
 - (A) Doxidis
 - (B) C.A. Perry
 - (C) Jane Jacobs
 - (D) Revin Lynch
 - (E) Answer not known
- 45. Identify among the following, that falls under the category of tangible cultural heritage.
 - (A) Kolam of Tamil Nadu
 - Buildings and artefacts
 - (C) River and lakes
 - (D) Vedic chants
 - (E) Answer not known

- 46. The amount of carbon dioxide that can be attributed to a person's life style is called
 - (A) Thermal unit
 - (B) Cistern foot print
 - (C) Carbon handprint
 - (D) Carbon foot print
 - (E) Answer not known
- 47. This is a central government flagship programme to enable higher educational institutions work with the people of rural India?
 - (A) Swachh Bharat Mission
 - (B) HRIDAY
 - Unnat Bharat Abhiyan
 - (D) National Rurban Mission
 - (E) Answer not known
- 48. The land necessary to apply the resource necessary for survival is
 - (A) Carbon footprint
 - Ecological foot print
 - (C) Desiccant
 - (D) Ecological hand print
 - (E) Answer not known

49.	Rehabilitation or renovation of existing buildings or structures for any uses other than the present use is called							
	(A)	Consolidation						
	(B)	Reproduction						
	()	Adaptive reuse						
	(D)	Preservation						
	(E)	Answer not known						
50.		———— refers to the layering of subsurface materials.						
•	(A)	Topography						
	(B)	Land shaping						
	(2)	Stratigraphy						
	(D)	Surfacegraphy						
	(E)	Answer not known						
51.		physical addition or application of adhesive or supportive erials into actual fabric is						
	(A)	Restoration						
	P	Consolidation						
	(C)	Reproduction						
	(D)	Preservation						
	(E)	Answer not known						

52.	A parcel of land left over after platting, which is intended as open
	space and no building shall be permitted is called

- (B) Out look
- (C) Out plot
- (D) Out zone
- (E) Answer not known
- 53. An urban region whose boundaries may exceed those of one, usually large, city refers as
 - (A) Urbanisation
 - (B) Agglomeration
 - (C) Rise of the cities
 - (D) Primate city
 - (E) Answer not known
- 54. Urban housing density is crucial because
 - (A) It tends to be associated with higher carbon emissions
 - (B) It provides social equality
 - It supports connectivity and public transport
 - (D) It creates a fairer and just city
 - (E) Answer not known

55.		Indira Awaas Yojana scheme was launched by the ministry of l development to ————.	
	A	provide houses to the BPL families in rural areas	
	(B)	provide houses to the APL families in rural areas	
	(C)	provide houses to the BPL families in urban areas	
	(D)	provide houses to all categories of families in rural areas	
	(E)	Answer not known	
56.	Maintaining the fabric of a place in its existing state and retarding deterioration means ————.		
	(A)	Restoration	
	(B)	Conservation	
	(0)	Preservation	
	(D)	Reconstruction	
	(E)	Answer not known	
57.	fron	is a temporary work designed to resist stresses arising subsidence or bursting and landslip.	
	(A)	curing	
	(P)	shoring	
	(C)	grouting .	
	(D)	shorting	
	(E)	Answer not known	

58.	A short-term intensive planning session where residents, designers and others collaborate on a vision for development is called			
	(A)	Committee		
	P	Charrette		
	(C)	Disensive discussion		
	(D)	Porticullus means		
	(E)	Answer not known		
59.	Penetrating X-rays or gamma rays to see inside a wide range of materials and to detect foreign object is called ———.			
	(A)	Gammation		
	(B)	Idography		
	(C)	Pentology		
	(B)	Radiography		
	(E)	Answer not known		
60.		ing work comprises of two phases ———————————————————————————————————		
	(A)	Documenting and mapping		
	(B)	Mapping and interviewing		
	(C)	Enquiry and consolidation		
		Background research and field work		
	(E)	Answer not known		

61.	If the direction of the wind is at 90° to one of the faces, negative pressure will be produced on ———————————————————————————————————		
	(A)	One windward face	
	P	One leeward face	
	(C)	Two windward faces	
	(D)	Two leeward faces	
	(E)	Answer not known	
62.	 mea	——————————————————————————————————————	
	(A)	Azimuth	
	(B)	Attitude	
	(C)	Latitude	
	(D)	Sun path	
	(E)	Answer not known	
63.	(B)	heat flow rate through the construction due to solar radiation ressed as a fraction of the incident solar radiation is termed as Solar gain factor Sol-air temperature Solar intensity Solar constant Answer not known	

64.	mate	of heat transfer that occurs through a unit thickness of erial for a unit area subjected to a unit difference in perature
	(2)	Conductivity
	(B)	Conductance
	(C)	Resistance
	(D)	Resistivity
	(E)	Answer not known
65 .	Ther	mal transmittance is also known as ———.
	(A)	K-value
	B	U-value
	(C)	R-value
	(D)	C-value
	(E)	Answer not known
66.	Opei	rative temperature combines the effect of
	(A)	Humidity and Radiation
	(D)	Radiation and Air temperature
	(C)	Humidity and Air temperature
	` '	Air temperature and Air movement
	(E)	Answer not known
	(22)	

- 67. In hot-dry climates the ————— ratio should be low as possible to minimize heat gain.
 - (A) surface area to volume
 - (B) heat loss to heat gain
 - (C) wall to solar radiation
 - (D) Building orientation to height
 - (E) Answer not known
- 68. The thermal balance of the body may be expressed as
 - (A) Evaporation Metabolism ± Heat release/absorption by a body = O
 - Metabolism Evaporation ± Heat release/absorption by a body = O
 - (C) · Heat release Heat absorption \pm Metabolism = O·
 - (D) Heat release + Heat absorption + Evaporation Metabolism = O
 - (E) Answer not known
- 69. Identify which is NOT the design strategy of warm humid climate.
 - (A) Built on stilts
 - (B) Open elongated plan
 - (C) Detached
 - Close group of buildings
 - (E) Answer not known

70.	Hun	nidity is measured with
	(A)	Wet bulb hygrometer
	B	Wet and dry bulb Hygrometer
	(C)	Thermometer
	(D)	Anemometer
	(E)	Answer not known
71.	The is —	ratio of maximum outer to inner surface temperature of a wall
	(A)	Time lag · · ·
	D	Decrement factor
	(C)	Conductivity
	(D)	Conductance
	(E)	Answer not known
72.	It can occur through a open window: the warmer and lighter indoor air will flow out at the top and cooler denser outdoor air will flow in at the bottom. This principle is called	
	CAS	Stack effect
	(B)	Natural ventilation
	(C)	Convective heat transfer
	(D)	Thermal effect
	(E)	Answer not known

- 73. This allows light and ventilation and maintains privacy
 - (A) Coffered roof
 - (B) Niche
 - (C) Jali Perforated Sun Screens
 - (D) Atavistic membrane
 - (E) Answer not known
- 74. The energy obtained from naturally repetitive and persistant flows of energy occurring in the local environment is called as
 - (A) non-renewable energy
 - (P) renewable energy
 - (C) net-zero energy
 - (D) brown energy
 - (E) Answer not known
- 75. Which one of the following shading devices is suitable for shading south, east and west orientations?
 - Overhang vertical panel
 - (B) Vertical fin slanted
 - (C) EGG crate
 - (D) EGG crate with slanted fin
 - (E) Answer not known

76.	A su	rface being illuminated by the incident light is measured by
	(A)	Luminance
	(D)	Illuminance
	(C)	Day light factor
	(D)	Efficacy
	(E)	Answer not known
77.		ne ceiling is ———————————————————————————————————
	(A)	Grey
	(B)	Black
	(C)	Rough
	JD)	White
•	(E).	Answer not known
78.	Heat	t trapping is a mechanism used to
	(A)	reduce heat gain
	P	increase heat gain
	(C)	cool the interior spaces
	(D)	prevent heat from entering into the building
	(E)	Answer not known

- 79. Which one of the Architectural lighting types is suitable for providing a uniform level of illumination throughout the space independently of other lighting sources.
 - (A) Accent Lighting
 - (B) Cove Lighting
 - (2) Task Lighting
 - (D) Ambient Lighting
 - (E) Answer not known
- 80. Wing walls are designed primarily to allow the most amount of
 - Natural air into the buildings
 - (B) Mechanical air into the buildings
 - · (C) Foul air into the buildings ·
 - (D) Hot air into the buildings
 - (E) Answer not known
- 81. During which Five Year Plan did IDSMT introduced
 - (A) Fourth five year plan
 - (B) Fifth five year plan
 - Sixth five year plan
 - (D) Seventh five year plan
 - (E) Answer not known

82.		Ionofunctional town —————————— or more of the total workers in one occupation
	(A)	30%
	(P)	40%
	(C)	50%
	(D)	60%
	(E)	Answer not known
83.	CR2	IB is defined as the area between
	· (A)	100m from Low tide line and High tide line
	(P)	Low tide line and High tide line
	(C)	200m from High tide line and High tide line
	(D)	500m from High tide line and High tide line
•	(E)	Answer not known
84.	rour parl	erms of Multilevel parking lots as per 2019 the setbacks all and spacing between blocks within the site for multilevel sing structures upto 18.30m high shall be a minimum if irrespective of the area of location of the multi-level sing structure
	. (4)	4.0 m
	(B)	2.8 m
	(C)	3.0 m
	(D)	6.0 m
	(E)	Answer not known

85.	Villa	age agglomerate together to form a	
	(A)	Metropolis	
	(D)	Polis	
	(C)	Megalopolis	
	(D)	Ecopolis	
	(E)	Answer not known	
86.	Jamshedpur and Chittaranjan comes under		
	(A)	Steel town	
	P	Industrial town	
	(C)	Capitals	
	(D)	Residential and Commercial town	
	(E)	Answer not known	
87.	(DC) safe	per the Regulations for Special provisions for Hospital Buildings R 2019) Minimum of two large ————————————————————————————————————	
	(A)	Louvered Windows	
	(B)	Slider Windows	
	(C)	Casement Windows	
	(D)	Transom Windows	
	(E)	Answer not known	

88.		y open space provided either interior or exterior shall be kept from any erection, like a cornice, roof or sunshade not more
		wide.
	(A)	0.6 m
	(P)	0.75 m
	(C)	0.90 m
	(D)	1.00 m
	(E)	Answer not known
89.	-	theory of human settlement planning, 'Ekistics' was the
	(A)	CA Perry
	(P)	Doxiadis
	, (C)	Patrick Geddes
	(D)	Radburn
	(E)	Answer not known
90.	The	need for the preparation of Master Plan was initiated in
	(A)	Third Five Year
	P	Second Five Year
•	(C)	Fourth Five Year

(D) Fifth Five Year

(E)

Answer not known

- 91. The recommended space standards for Arterial Road is
 - (A) 30 40 m
 - (B) 20 30 m
 - 50 60 m
 - (D) 90 10 m
 - (E) Answer not known
- 92. Why were the Pyramids Primarily built?
 - (A) To conduct religious ceremonies
 - To serve as royal burial sites
 - (C) To facilitate astronomical observations
 - (D) To provide defensive fortifications
 - (E) Answer not known
- 93. How were the defining architectural features of Renaissance planning characterized?
 - (A) Simple and Utilitarian designs
 - (B) Gothic arches and Spires
 - Ornate facades and Domes
 - (D) Classical proportions and Symmetry
 - (E) Answer not known

94.	polit	is the place where the people get together for ical, commercial or social activities in Greek City States.
		Agora
	(B)	Milletus
	(C)	Acropolis
	(D)	Theater
	(E)	Answer not known
95.		were cities, towns and villages in ancient India typically nized?
	JA	According to guidelines specified in Hindu Shastras and Puranas
	(B)	Without strict adherence to specific rules from Hindu Shastras and Puranas
·	(C)	Following Greek architectural principles rather than Hindu Shastras and Puranas
	(D)	With minimal influence from Hindu Shastras and Puranas on their layout.
	(E)	Answer not known
96.	The	open space occupied by Agora in Greek City States is about percent of the city area.
	(A)	20
	(B)	10
	(C)	30
	(B)	5
	(E)	Answer not known
		•

97.	The name — means the mount of the dead and it is regarded as the cradle of Buddhism of the subcontinent.			
	(A)	Harappa		
	(B)	Mohenjodaro		
	(C)	Indus		
	(D)	Ancient Civilization		
	(E)	Answer not known		
98.	The fort amidst the river is called as			
•	(A)	Sthala		
	(P)	Antardvipa		
	(C)	Daivakrta		
	(D)	Prastara		
	(E)	Answer not known		
99.	In a	ncient planning text, the human habitat is also called as		
	(M)	Martyapada		
	(B)	Manushya pada		
	(C)	Vaisya pada		
	(D)	Vigna pada		
	(E)	Answer not known		

100.		city planning of Shajahanabad which replicates the ancient planning of —————.
	(A)	Swastika
	(B)	Padmaka
	(2)	Karmukha
	(D)	Dandaka
	(E)	Answer not known
101.	The a	acceptable noise level for outdoor recreation is ———————————————————————————————————
	(A)	45
	(B)	50
,	(P)	55
	(D)	60
	(E)	Answer not known
102.		tural process by which different communities colonize the same over a period of time in a definite sequence is ———————————————————————————————————
	(A)	Ecosystem degradation
	(B)	Sustainable development
	(C)	Adaptation
,	D	Ecological Succession
	(E)	Answer not known

Bluff Dado Duff Puff Answer not known ognitive process of perceiving settings, ascribing meaning and ructing mental images of place: it occurs in the mind is referred Landscape Making Space Making Site Making Place Making
Dado Duff Puff Answer not known cognitive process of perceiving settings, ascribing meaning and ructing mental images of place: it occurs in the mind is referred Landscape Making Space Making Site Making
Duff Puff Answer not known ognitive process of perceiving settings, ascribing meaning and ructing mental images of place: it occurs in the mind is referred Landscape Making Space Making Site Making
Puff Answer not known cognitive process of perceiving settings, ascribing meaning and ructing mental images of place: it occurs in the mind is referred. Landscape Making Space Making Site Making
Answer not known ognitive process of perceiving settings, ascribing meaning and ructing mental images of place: it occurs in the mind is referred
ognitive process of perceiving settings, ascribing meaning and ructing mental images of place: it occurs in the mind is referred
ructing mental images of place: it occurs in the mind is referred

Site Making
Place Making .
O Company of the comp
Answer not known
ady shelter of shrubs and branches or of latticework intered with climbing vines and flowers is called
Promenda
Arbor
Arcade
Abbey
Answer not known

106.	06. The notification on coastal regulation zone is stipulated by								
	(A)	Ministry of urban development							
,	B	Ministry of environment of forestry							
	(C)	Ministry of tourism							
	(D)	Ministry of water bodies							
	(E)	Answer not known							
107.	Sapr	otrophs are also known as					•		
	(A)	Energy producers	(B)	Synthesyce	ers				
	مراكل	Decomposers	(D)	Assimilato	rs	•			
	(E)	Answer not known							
108.	Tree	s organized on a grid is called			٠.	٠			
	(A)	Craoque	(B)	Baroque					
	(C)	Taroque	JOY Y	Bosque					
	(E)	Answer not known							
109.		size relationship between piedle is called	ce and	d piece, or b	etween p	oiece a	nd		
•	مريش	Proportion	(B)	Variegation	n				
	(C)	Profile	(D)	Tonation	,				
	(E)	Answer not known							
110.	Zen	temple gardens and stroll gardens.	gard	lens are d	ifferent	types	of		
,	(2)	Japanese	(B)	Chinese					
	(C)	Italian	(D)	Mughal					
	(E)	Answer not known		·					
		35			401 – Arc	hitectu Furn ov			

	e climate at a neighbourhe nate.	ood scale is called as ————
(A)	Macro	(P) Meso
(C)	Micro	(D) Regional
(E)	Answer not known	
	-	f space, mass and characteristics of ensify placeness is referred as
(24)	Spatial development	(B) Site development
(C)	Landscape development	(D) Design development ·
(E)	Answer not known	
	el formed under the earth anic matter is called	's surface by the decomposition of
(A)	Organic fuel	(P) Fossil fuel
(C)	Biogas	(D) Underground fuel
(E)	Answer not known	
	e forest conservation Act ena ole of India except	acted in the year 1980 extends to the
(A)	Uttar Pradesh	(B) Himachal Pradesh
40	Jammu and Kashmir	(D) Haryana
(E)	Answer not known	
115. As	per census 2011, the most po	pulated city in India is
(A)	Kolkatta	Greater Mumbai

116	ны	n lavalling refers to Hoight of th	ho ingtyument					
110.	16. H.I in levelling refers to Height of the instrument.							
•	(D)	With respect to assumed datum						
	(B)	Above the ground where level	stands					
	(C)	With respect to bench mark						
	(D)	With respect to mean sea leve	L					
	(E)	Answer not known						
117.	Usin	g native tree species on a site						
,	(4)	Maintains ecological balance						
•	(B)	Damages the existing ecosyste	em ·					
	(C)	Promotes agro-forestry						
	(D)	Threats the arboreal species						
	(E)	Answer not known						
118.	The p	pH value of good soil ranges be	tween					
	(A)	10 to 12						
	(B)	Less than 5						
· •	مروي	6 to 8						
	(D)	Greater than 14						
	(E) .	Answer not known						
119.	Float	Floating generators are used in the sea to harness						
	(A)	Tidal energy	(P) Wave energy					
	(C)		(D) Offshore wind energy					
	(E)	Answer not known						

120.	The following is not combustible						
	(A)	Hydrogen		Oxygen			
	(C)	Butane	(D)	Methane			
	(E)	Answer not known					
121.	Expl	anation for Hybrid ventil	ation is th	at which			
	(A)	System has latest techno	ology in co	mputer control			
	(B)	Combines active con mechanical air movemer					
	(C)	Unnatural combination operated ventilators	of mechar	nical systems with manually			
	(D)	Combinations of systems	s invented	by Hyme Bridowski in 1935			
	(E)	Answer not known					
	•	•	•	•			
122.	In an air conditioning system FCV means						
	(A)	Fan console unit	(B)	Full compressor unit			
•	(2)	Fan coil unit	(D)	Failed compressor unit			
	(E)	Answer not known					
123.	Buoyancy pumps are also known as						
	(A)	Impulse pumps	(B)	Air lift pumps			
	(C)	Velocity pumps	(D)	Chain pumps			
	(E) _.	Answer not known					
124.	What is meant by "W.C." in plumbing and sanitation?						
,	SAY.	Water - Closet	(B)	Water – Cubicle			
	(C)	Water - Cup	(D)	Water - Container			
	(E)	Answer not known					
401 -	Archi	itecture	38				

120.	water supply system is that							
	(A)	Labour and supervision i	s high					
	(B)	Loss of head is high						
	(C)	Consumes more time						
,		Water is wasted when th	e tank is	to be cleaned				
	(E)	Answer not known						
126.	——wate		of engine	eering science that deals with				
,	(4)	Hydraulics	(B)	Electronics				
	(C)	Pneumatics	(D)	Aqualics				
	(E)	Answer not known		•				
	•			•				
127.	The power lines, which helps in supplying electricity from distant generating stations is							
	(A)	Transformers	(B)	Sub-stations				
	(C)	Generators		Power-grid				
	(E)	Answer not known						
128.	Electrical supply cables are generally made of							
		Copper	(B)	Steel				
`	(C)	Iron	(D)	Lead				
	(E)	Answer not known						

		y of air Evaporative	(B) Spray
,	(C)	Surface	(D) Unit
	(E)	Answer not known	(D) Office
130.	In ai	r-conditioning, what does VRV	$^{\prime}$ stand for
	(A)	Variable Reverse Volume	
,	(B)	Variable Refrigerant Volume	
	(C)	Volume Refrigerant Variable	
	(D)	Volume Reverse Variable	
	(E)	Answer not known	
	air—	flow rate through each outlet in the air-conditioned space is	in the diffusers for adjusting the for balancing the air distribution
	air-	flow rate through each outlet	for balancing the air distribution
	air-	flow rate through each outlet in the air—conditioned space is Grills	for balancing the air distribution
,	air—with (A)	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper	for balancing the air distribution
	air—with (A) (C)	flow rate through each outlet in the air-conditioned space is Grills Adjustable damper Propeller Fan	for balancing the air distribution
	air—with (A) (C) (D)	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper	for balancing the air distribution
	air—with (A) (C) (D) (E)	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper Propeller Fan Thermostat Answer not known is defined as the nu	for balancing the air distribution
. 132.	air—with (A) (C) (D) (E)	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper Propeller Fan Thermostat Answer not known is defined as the nu	for balancing the air distribution
	air—with (A) (C) (D) (E)	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper Propeller Fan Thermostat Answer not known is defined as the nund Pit	for balancing the air distribution
	air—with (A) (C) (D) (E) seco	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper Propeller Fan Thermostat Answer not known is defined as the nund Pit	for balancing the air distribution
	air—with (A) (C) (D) (E) seco	flow rate through each outlet in the air—conditioned space is Grills Adjustable damper Propeller Fan Thermostat Answer not known is defined as the nund Pit Trimmer	for balancing the air distribution

133.	The 1	term VAV in Air Conditioning stands for
	(A)	Volume Air Variable
	(B)	Variable And Volume
	(2)	Variable Air Volume
	(D)	Volume Air Volatile
	(E)	Answer not known
134.	The	science of sound is referred as ""
	مريش	Acoustics
	(B)	Plumbing
	(C)	Damp proofing
	(D)	Water Proofing
,	(E) .	Answer not known
135.	Opti:	mum Reverberation time by Sabine formula in cinema theater
,	JAY .	1.5 seconds
	(B)	Less than 0.5 seconds
	(C)	3 seconds
	(D)	5 seconds
	(E)	Answer not known

136.	is an electrical device which indicates the floors at which an elevator landing, through lights						
	(A)	Signaller					
	(B)	Rheoster					
	(C)	Bulker					
		Annunciator					
	(E)	Answer not known					
137.		ospital building can fall under the category of which type of occupancy?					
	1(2)	Light Hazard Occupancy					
	(B)	High-Hazard occupancy					
	(C)	Ordinary Hazard Occupancy					
	· (D)	Emergency Hazard Occupancy					
	(E)	Answer not known					
138.	The	ground level of the hoistway of a lift is known as					
	(A)	Trench					
	(B)	Pit					
	(C)	Hole					
•	(D)	Bumper					
	(E)	Answer not known					

- 139. Identify the important criteria to be followed while designing vertical transportation for commercial buildings?
 - (A) Should be grouped
 - (B) Should dominate the lobby visually
 - (C) Should be adjacent to Toilet lobby
 - (D) Should have long corridor space abutting
 - (E) Answer not known
- 140. The type of sprinkler usually used in unheated buildings, in which the pipes are filled with compressed air or Nitrogen is
 - Dry-Pipe sprinkler
 - (B) Wet-Pipe sprinkler
 - (C) Pre-action sprinkler
 - (D) Deluge sprinkler
 - (E) Answer not known

141.	Match the following with correct examples						
	Group A						Group B
	(a)	Linea	r orgai	nisatio	n	1.	Villa capra, Italy
	(b)	Clust	ered or	ganisa	ation	2.	United Habitation, Marseilles
	(c)	Centr	alised	organi	sation	3.	Gandhi ashram, India
142.	(d)	Grid (organis	sation		4.	Meenakshi Sundereswar Temple, Madurai
		• (a)	(b)	(c)	(d)		
	(11)	2	4	1	3		
	(B)	1	2	4	3		•
	(C)	4	3	2	1		
	(D)	3	4	1	2		
	(E)	Ans	wer not	t know	'n		
		er sup Majo Free Exp	porting or arte e way ress wa ecter si	great rials ay			f the following occupies the higher speed
	(E)	Ans	wer no	t know	n .		
143.		_					ls the space unenclosed when the of height
	(A)	3					(B) 6
	• •						
	(2)	•					(D) 2

401 - Architecture

144.	This is not a component of building's circulation system?					
	(A)	Approach				
	(B)	Entrance				
	(C)	Path space Relationship				
		Spatial Organisation				
	(E)	Answer not known				
145.	The	Parthenon is based onin terms of proportion				
	(A)	Renaissance theories				
	(B) ·	Modular				
	100	Golden Section				
	(D)	Ken				
	. (E)	Answer not known				
146.	inter	is not a classification of Temples, according to their columniation				
	(A)	Systyle				
	P	Free style				
	(C)	Eustyle				
	(D)	Diastyle				
	(E)	Anguar not known				

147.	Out of the following, which type of window can be defined as "A projected alcove in the wall creating a subspace of its own, with openings on three sides allowing for interaction with the exterior"					
	(A)	Perforation				
	(B)	Casement				
	(C)	Bay				
	(D)	Dormer				
	(E)	Answer not known				
148.	. An a	axis is a linear condition, that has qualities ofand				
	(A)	length and orientation				
	(B)	length and breadth				
	(2)	length and direction				
	(D)	length and movement				
	(E)	Answer not known				
149.	An e	extended plane becomes a volume with the following properties				
	(A)	Length, width and shape				
	(B)	Length, direction and position				
	(2)	Length, width and depth				
	(D)	Length, width and direction				
	(E)	Answer not known				

150.	San	chi Stupa, India is an example forsymmetry
		Radical
	(B)	Assymmetrical
	(C)	Bilateral
	(D)	Unilateral
	(E)	Answer not known
151.	A re	latively dark value of a colour produced by adding black to it is
	(A)	Tint · · ·
	(B)	Form
	(2)	Shade
	(D)	Shadow
•	(E)	Answer not known
152.		volumes can be analysed as consisting of the following:
	` '	lines
	` ,	Planes
	•	(1) and (2) Only
	B	(1), (2) and (3)
	(C)	(2) and (3) Only
	(D)	(3) Only
	(E)	Answer not known

153.	An i	ntermediate value of a colour between a tint and a shade is
	(<u>1</u>	tone
	(B)	achromatic
	(C)	mediator
	(D)	mono chromatic
	(E)	Answer not known
154.		ngle vertical plane defining the principle facade of a building ting a public space is experienced in
•		St. Agostine, Rome
	(B)	Nakagin Capsule Tower, Tokyo
	(C)	Hattenbach Residence, California
	(D)	Seinajoki Theater, Finland
	(E)	Answer not known
155.	Thol	os of Polycleitos, Epidantos, Greece is case example forin theory of Architecture Circle
	(B)	Cylinder
	(C)	Sphere
	(D)	Hemisphere
	(E)	Answer not known
156.	A qui	nick way to gain access to frequently used 'Blocks' in AutoCAD
	(A)	MATLIB (B) Tool palettes
	(C)	Block Library (D) Block Editor
•	(E)	Answer not known
401 -	Arch	itecture 48

157.	The command, in AUTOCAD which facilitates the architects to know the square foot or square meter of a room or a section of the building is					
	(A)	Boundary				
	(B)	Surface				
	(CY)	Area				
	(D)	Poly surface area				
	(E)	Answer not known				
158.	•	AP mode can be toggled in AUTOCAD by the following ways				
	(i)	Ctrl+G				
	(ii) F9					
		F7				
•	` ,	Ctrl+B				
	(A)					
	B	(ii) and (iv) only				
	(C)	(i) and (iii) only				
	(D)	(iii) and (iv) only				
	(E)	Answer not known				
159.		AUTOCADallows snapping along vectors based on set angle increments around an initially specified point				
	(4)	Polar tracking				
	(B)	Ortho snap				
	(C)	Object snap				
	(D)	Grid snap				
	(E)	Answer not known				

- 160. The command aliases 'EL' in AUTOCAD means
 - (A) Elongate
 - (B) Extrude
 - (C) Extend
 - (P) Ellipse
 - (E) Answer not known
- 161. Which of the following is NOT the factor affecting project cash flow?
 - (A) Profit margin exceeding over cost
 - (B) Extra claim in a project
 - (C) Over or under measurement
 - Internal rate of return
 - (E) Answer not known
- 162. Which of the following is 'not' an objective of Feasibility study of a construction project?
 - (A) Evaluation of options available
 - (B) Schematic plans
 - (C) Construction schedules
 - (D) Contract status report
 - (E) Answer not known

- 163. The Anticipated cost reduction in cloud delivery system is as high 40%-50% 50%-60% (B) (C) 60%-70% (D) 70%-75% Answer not known (E) ____networks, the whole project consists of a number of clearly recognizable jobs or operations called activities Critical Path Method (CPM) Program Evaluation and Review Technique (PERT) (C) Rise and Fall (RF) (D) Continuous Monitoring (CM) (E) Answer not known
- 165. In Project management, an S-curve
 - (i) Is a mathematical graph that depicts relevant cumulative data for a project such as cost or man hours plotted against time
 - (ii) Can forecast future project performance based on historical data
 - (A) Only Statement (i) is correct
 - (B) Statement (i) and (ii) are correct
 - (C) Only Statement (ii) is correct
 - (D) Both the statements are incorrect
 - (E) Answer not known

166.	Benefits of choosing Primavera over Microsoft project includes					
	(i)	Assign and display unlimited baselines to the schedule.				
	(ii)	Work Breakdown Structure (WBS) levels and activities are all same and can link an activity to a WBS level.				
	(iii)	Helps users to breakdown a complex activity into smaller parts, while maintaining the simplicity of a Gantt chart.				
	(A)	(i) only (B) (iii) only				
	(C)	(i) and (ii) (D) (i) and (iii)				
	(E)	Answer not known				
167.	Advantages of Monte Carlo simulation includes					
	(i)	It offers a clearer picture than a deterministic forecast.				
	(ii)	Quantifies risks to assess impacts.				
	(iii)	Can be used to analyze individual activities or risks.				
	(A)	(i) only (i) and (ii)				
	(C)	(i) and (iii) (D) (ii) and (iii)				
	(E)	Answer not known				
168.		efit Cost Ratio greater than 1 (one) indicates the project is				
	(A)	Project's costs outweigh the benefits				
	(B)	Project can deliver a positive Net Present Value (NPV)				
	(C)	Project can deliver a negative NPV				

(D) Net cash flow is zero

(E) Answer not known

169.	The accuracy rate of "Indicative cost estimate" is ————. It can be considered as the "initial rough cost".						
	(I)	- 30% to +40%		(B) ±5°	%		
	(C)	−5% to −15%		(D) ±50	0%		
	(E)	Answer not know	wn				
170.		construction Tech pletion of an activ		project	management	the term	
	(A)	Process	•	(B) CP	M		
	(C)	PERT.	•	(D) Ev	ent	•	
	(E)	Answer not know	wn				
171.	This is not a phase of project management, though it is significant part of it.						
	(A)	Project planning	;	(B) Pro	oject controlling	or 5	
	(C)	Project scheduli	ng	(D) Tir	ne managemen	ıt	
	(E)	Answer not know	wn				
172.	Bar	charts cannot be	used to				
	(A)	(A) Report information to people					
•	Facilitate Day to Day management						
	(C) Visual overview of a project						
	(D) Compare actual progress to planned						
	(E)	Answer not know	wn	·			

173.	very special attention and action					
	(A)	Sub-critical activity	(B)	Critical Activity		
	(C)	Dummy activity	0	Super critical activity		
	(E)	Answer not known				
174.	The	activities of a entire project on	Gan	tt charts is shown as		
	(A)	Vertical lines	JB)	Horizontal lines		
	(C)	Crossess	(D)	Dots		
	(E)	Answer not known		•		
175.	Among the following, this — project is not a "Need-based project" type					
	(A)	Public projects	•	•		
	(B)	Corporate need projects				
	(C)	Government Infrastructure projects				
1	(2)	Information system projects				
	(E)	Answer not known				

176. (i)	Dummy is a type of operation in the network which does not
	require any time or resources.

- (ii) Connecting link for control purposes.
- (iii) Represented by arrow
- (iv) Identified by the number of terminal node.

Which of the above, is true about a Dummy?

(A) (i), (ii) and (iii) only

(B) (i), (iii) and (iv) only

(C) (i), (ii), (iii) and (iv)

(D) (i), (ii) and (iv) only

(E) Answer not known

177. Total float in CPM method is

Difference between maximum time available to perform activity and its duration

- (B) Difference between minimum time available to perform activity and its duration
- (C) Summation of minimum time available to perform activity and its duration
- (D) Sum of event and activity
- (E) Answer not known

178. The minimum activity duration to which an activity can be compressed by increasing resources and direct cost is called

(A) Optimistic time

(P) Crash time

(C) Least time

(D) Expected time

(E) Answer not known

179.		rate of increase or decrease in ease in time is referred as	n the cost of an activity per unit			
	(1)	Cost slope	(B) Cost variable			
	(C)	Cost constant	(D) Cost benefit			
	(E)	Answer not known				
180.	——————————————————————————————————————					
	(2)	Controlling	(B) Scheduling			
	(C)	Replanning	(D)· Activity-oriented			
	(E)	Answer not known				
181.	The	The steels after hardening must undergo				
	(20)	Tempering	(B) Nitriding			
	(C)	Normalising	(D) Cementing			
	(E)	Answer not known				
182.		bricks that are graded AA ter than ————— N/mm²	should have crushing strength			
	(A)	7	(B) 10			
•	(C)	12	(D) 14			
	(E)	Answer not known				
183.	The crude impure iron which is extracted from iron ore is known as					
	(A)	Solvent	(B) Pig iron			
	(C)	Wrought iron	(D) Iron ore			
	(E)	Answer not known				

401 – Architecture

 No slump From 10 mm to 30 mm From 40 mm to 150 mm (P) Mobile mix (Q) Stiff and extra stiff mix (R) Cast mix 	x
3. From 40 mm to 150 mm (R) Cast mix	x
` '	
4. Over 150 mm (S) Poorly mobile mix	
(1) (2) (3) (4)	
(A) Q P R S	
(B) S Q P R	
(C) R S P Q	
(P) Q S P R	
(E) Answer not known	
185. The weight of magnesia in cement should not exceed	
(A) · 10% (B) 8%	
6% (D) 12%	
(E) Answer not known	
186. Admixtures used to reduce the setting time from the s	
addition of water and increase the rate of gain of strength ar as	e called
(A) Plasticizers.	
Accelerating Admixtures	
(C) Extended set control admixtures	
(D) Retarding admixtures	
(E) Answer not known	
·	

187.	An example of clastic textural classification of sedimentary rock			
	A	Sand stone	(B)	Marble
	(C)	Slate	(D)	Granite
	(E)	Answer not known		
100	The c	handras of Dituminana matari	ial ia	tooted by
100.	The	hardness of Bituminous materi		
•		Penetration test	, .	Softening point test
		Attrition test	(D)	Impact test
	(E)	Answer not known		•
189.	The	percentage of lime by com	posit	tion in ordinary cement is
	(A)	56	(B)	45
	(C)	74	N(D)	62
	(E)	Answer not known		
190.	the 1	ne the defect of the timber who trees will be present on the sur pieces.	-	
	(A)	Shakes	(B)	Wane
,	(C)	Knots	(D)	Twisting
	(E)	Answer not known		
191.		ch of the following compounterties in a cement?	nd o	loes not impart cementing
	(A)	Dicalcium silicate	(B)	Tricalcium silicate
	(C)	Tricalcium Aluminate		Dicalcium Carbonate
	(E)	Answer not known		·

401 - Architecture

	(A)	Corbel	(B) Jamb
	(C)	Sill	(D) Throating
	(E)	Answer not known	
193.		ch among the following is ensions by building and constru	s the recommended modular ction authority?
	(A)	Basic Module : $1 M = 3000 mn$	1
	(B)	.Basic Module : $1 M = 300 mm$	
,	(C)	Basic Module : 1 M = 100 mm	
	(D)	Basic Module: 1 M = 1000 mm	ı
	(E)	Answer not known	
194.		ease in volume of fine aggregat ent is known as	es due to an increase in moisture
	مريش	Bulking	(B) Weathering
	(C)	Compacting	(D) Tempering
	(E)	Answer not known	
195.	The	force-opposing movement of a n	nachine up a friction less slope
	(A)	Rolling resistance	(D) Grade resistance
	(C)	Friction movement	(D) Wheel resistance
	(E)	Answer not known	

192. A groove provided on the underside of cornice, coping, sunshade etc

to keep rainwater clear of wall surface is

	(A)	Enhance indoor air quality		
	(B)	Increase Energy Consumption	n	
,	(2)	Improve thermal insulation		
	(D)	Decrease natural lighting		
	(E)	Answer not known		
197.	•	are materials with high streatise construction?	ngth	to weight ratios preferred in
	(A)	To reduce building height	•	•
	(B)	To decrease construction time	9	
,	(2)	To enhance structural integri	ty	
	(D)	To tower maintenance costs		
•	(E)	Answer not known		
198.	The	most reliable and accurate me	thod	of estimate is
,	(2)	Item rate estimate	(B)	Preliminary estimate
	(C)	Plinth Area estimate	(D)	Cube Rate estimate
	(E)	Answer not known		
199.	The	unit of measurement for G.I., l	Pipe i	in building estimation is
	(A)	Nos	(3)	m
	(C)	$ m m^2$	(D)	m^3
	(E)	Answer not known		

196. What role do façade materials play in high-rise building design?

- 200. What does a detailed specification of brick work in a building typically include?
 - (A) Comprehensive breakdown of building materials and structural elements
 - (B) Detailed outline of building materials and structural elements
 - (C) In-depth analysis of brick durability and weather resistance
 - Thorough description of brick types and laying patterns
 - (E) Answer not known
